Effect of wet ethanol on performance and smoke emission of direct injection diesel engine with cold egr system fueled by diesel fuel and jatropha oil

[PDF] undip.ac.id

A Faaji, S Syaiful, [N SINAGA](#) - International Journal of Latest ..., 2019 - eprints.undip.ac.id

Diesel engines are widely used as a mode of transportation because of better performance and higher efficiency than gasoline engines. A large number of uses of diesel engines has resulted in increased consumption of fossil fuels and air pollution. Therefore, this study aims to find alternative fuels to reduce dependence on fossil fuels, and the impact of alternative fuels on the environment with the Exhaust Gas Recirculation (EGR) system. The use of jatropha oil as an alternative fuel and wet ethanol as an additive is one of the solutions to be ...
